

MIGHTY 90 PAKS™:

THE CENTERPOINT OF NUTRITION

Everyone should have a minimum of one product in the Multi-Vitamin Mineral Group and another in the Essential Fatty Acid Group on AutoShip. These products contain the core nutrients that make up the "Mighty 90," and should be the foundation of your nutritional health.

Picture the "Mighty 90" as the center of a flower (the capitulum). Any and all other products work more effectively if they are taken along with the "Mighty 90," so you would consider them the petals (or, corolla) of the flower. Each product, or petal, could do the job alone, but together they are much more effective.

If you are suffering with joint pain and you want to support your body, you might decide that the Pig Pak® or Pig Pak® Plus is right for you. The Tangy Tangerine® and Ultimate EFA™ make up the center of the flower, the Plant Derived Minerals™ the stem, and Gluco-Gel™ and Osteo fx™ create the petals.

Alternatively, you could try SupraLife's™ Ultra Body Toddy® and Ultimate EFA™ for your "Mighty 90," (or the center of your flower), and have your petals be EQ Factor™ and CocoGeivity™.

There are so many great combinations of our products targeted at thousands of health challenges. The Mighty 90™ systems offered by Youngevity® are basic nutrition "Starter Paks," containing all of the core nutrients needed by everyone and anyone! While the combination of the products in each Pak provide a powerful base for sustained health, ultimate wellness can be further supported with additional Youngevity® family products. Remember to always have nutrition reference books (try *Dead Doctors Don't Lie* by Dr. Joel D. Wallach and Dr. Ma Lan) and the most current Youngevity® catalog on hand, so that you can sit down with your friends, family, or customers and assist them in picking the best "flower" for their nutritional needs!

Classic 90 Pak™
Item# 10215

Contains 1 Ultimate Classic® and 1 E.F.A. 180™

Toddy 90 Pak™
Item# 10225

Contains 1 Ultra Body Toddy® and 1 E.F.A. 180™
